5	Arco Center	B	Commemorative	Los Angeles	Grey Metal		1980				Per Chris Spy: This ARCO Tower was a spec building built in the late 1980s prior to the office building bust in the 1990s. This was the "lesser" ARCO building, not the more famous ARCOTower that housed the oil company headquarters. This building housed the ARCO Products Division, the AM/PM Mini Marts. ARCO has ended their lease and taken the signage of the building. This was probably made as a souvenir for the initial occupancy of the building or as a sales award. I got this the Mart Collective in Venice CA last fall. I have not seen another like the, though I expect there are multiples that just haven't come to Market.
